Forecast For Wales
Issued by Met Office Exeter
at 0400 on Tuesday 11 May 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Windy with showers heavy at times.

Today:
Sunny intervals through the morning with scattered showers which will be heavy and thundery at times. These showers becoming more frequent with fewer sunny intervals during the afternoon, winds strengthening. Maximum temperature 15 deg C (59 deg F).

Tonight:
Winds will ease as further scattered showers affect Wales through the evening and overnight. These showers will be heavy at times. Minimum temperature 5 deg C (41 deg F).

Wednesday:
Another day of sunshine and showers, with these showers heavy and potentially thundery at times. Persistent heavy rain affecting some eastern parts during the evening. Maximum temperature 14 deg C (57 deg F).

Outlook for Thursday to Saturday:
Early heavy rain over northwestern Wales soon clearing to leave isolated showers and sunshine on Thursday. After a clear, dry morning on Friday, scattered showers arriving and persisting into Saturday.
